Fact Sheet

NDP 09 Webcast

Wanted to go for NDP but missed out on the chance for a ticket? Or perhaps you will be overseas during NDP? With our webcast partners, Singaporeans local and abroad with internet connection can now enjoy the celebrations regardless of where you are. 'Live' webcast of the parade, made possible by our webcast partner 1-Net, will be hosted at the NDP website <http://www.ndp.org.sg>.

This year, in partnership with Mediacorp, we will also be bringing you a 'live' interactive webcast from the Float @ Marina Bay. With 6 different camera feeds to choose from, online viewers can be their own director and experience the NDP show from various angles. Interactive features such as polling and online chat will also be built in to allow Singaporeans to converse with the rest of the nation.

In partnership with ServTouch ETI, we will also have 'live' webcast of eight selected celebrations in Singapore's heartlands. This footage will also be beamed back to the Float @ Marina Bay during the Pledge Moment, allowing one to see Singaporeans around the island taking the Pledge in unison.

More details of the latter two webcasts can be found at http://www.ndpeeps.com/live_webcast.html. Do join us as all Singaporeans come together to celebrate our country's 44th birthday!
